OK Notice CP-690

For: County Offices

CLU Certification Deadline

Approved by: State Executive Director

1 CLU Certification

A Background

Before the CLU layer can be certified for use as the official USDA photography, the State and County Office must be assured the CLU layer is correct and that all attributes associated with the layer are accurately entered. Handbook 2-CP (Rev. 15) subparagraph 501E directs county offices to complete CLU certification within 90 days, while subparagraph 501C directs SED's to ensure that CLU certification is a high priority task for County Offices, and that CED's appropriately direct resources to complete this work in a timely manner.

B Complete Certification

This notice informs county offices that a deadline of March 31, 2005, has been established for all Oklahoma counties to complete CLU certification, including mailing the producer notification letters along with copies of the new aerial photography for their farms.

This should also serve as a reminder that CLU Certification continues to be a high priority in County Offices.

Disposal Date

April 1, 2005

Distribution

County Offices
